Wired Digital Microscope or Camera Connected to Laptop (Broadcasting as a Router)

Start with a wired digital microscope or camera connected to Motic Images Plus software. MotiHUB is built into the software.

Students using tablets or smart phones can connect to the digital microscope or camera using the free MotiConnect app and the IP address generated by MotiHUB.

Students connected to the network and using Motic Images Plus (must be installed on the local drive) can connect to the digital device by inputting the IP address generated by MotiHUB.
